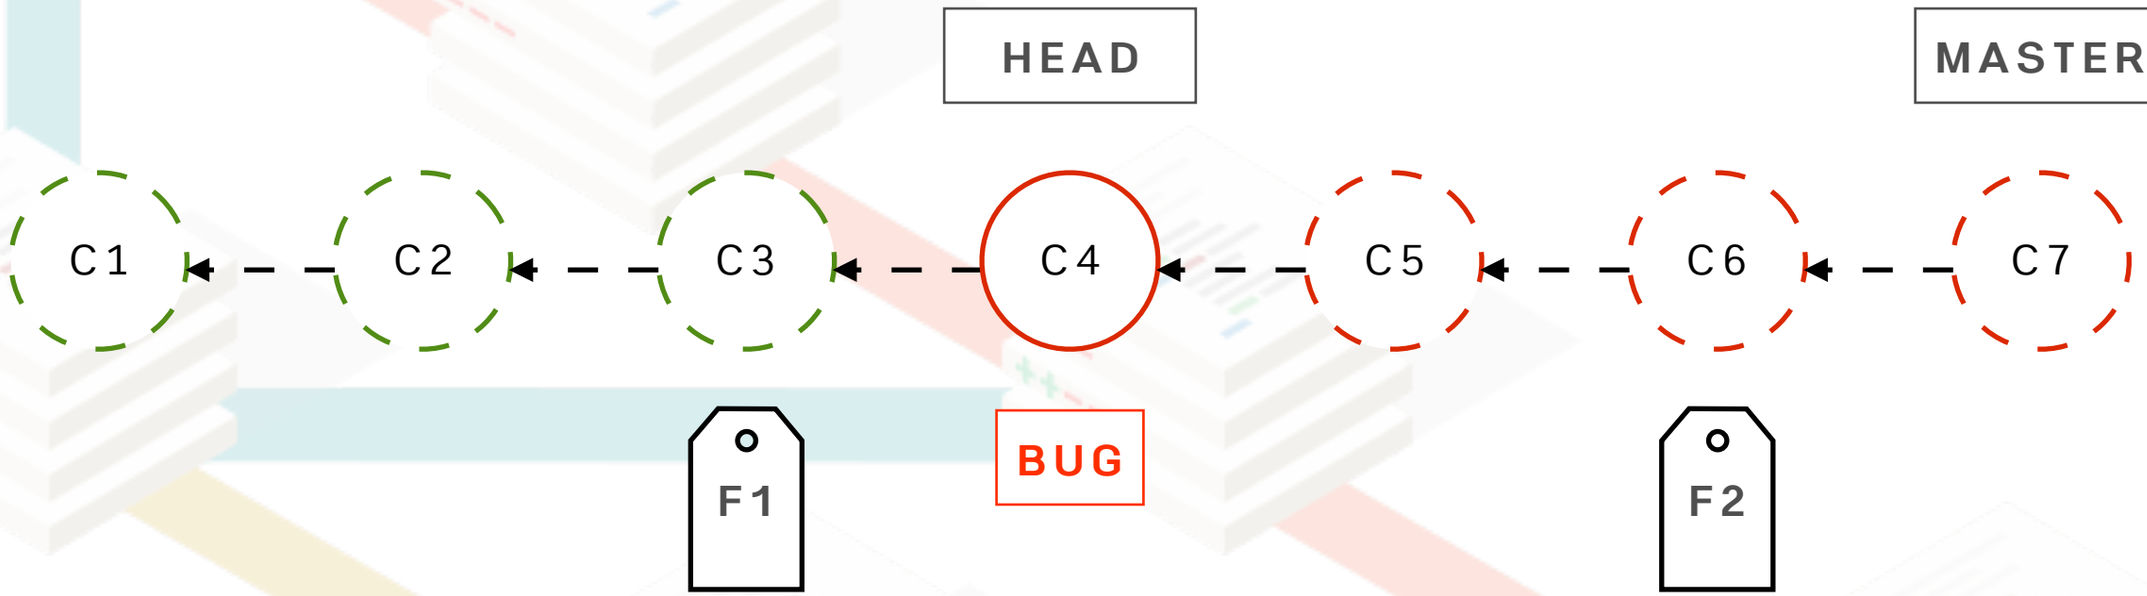
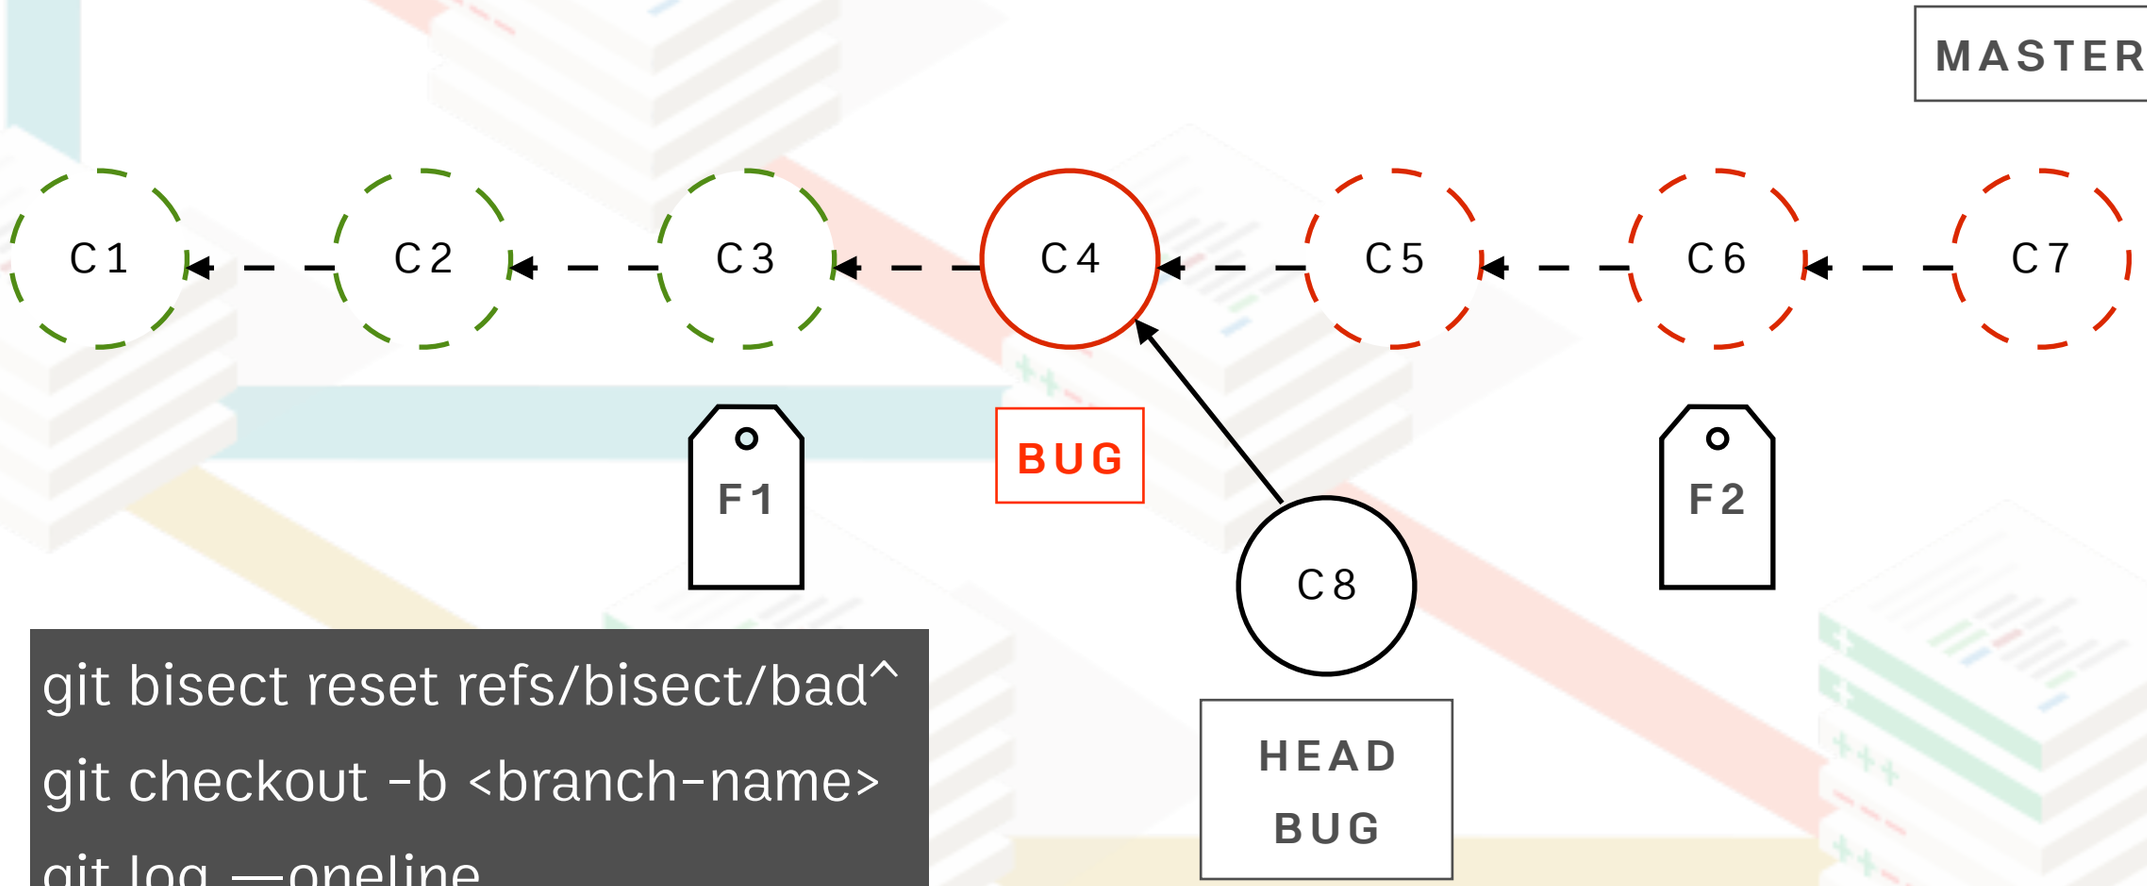
Merge code after fixed bug

PROBLEM



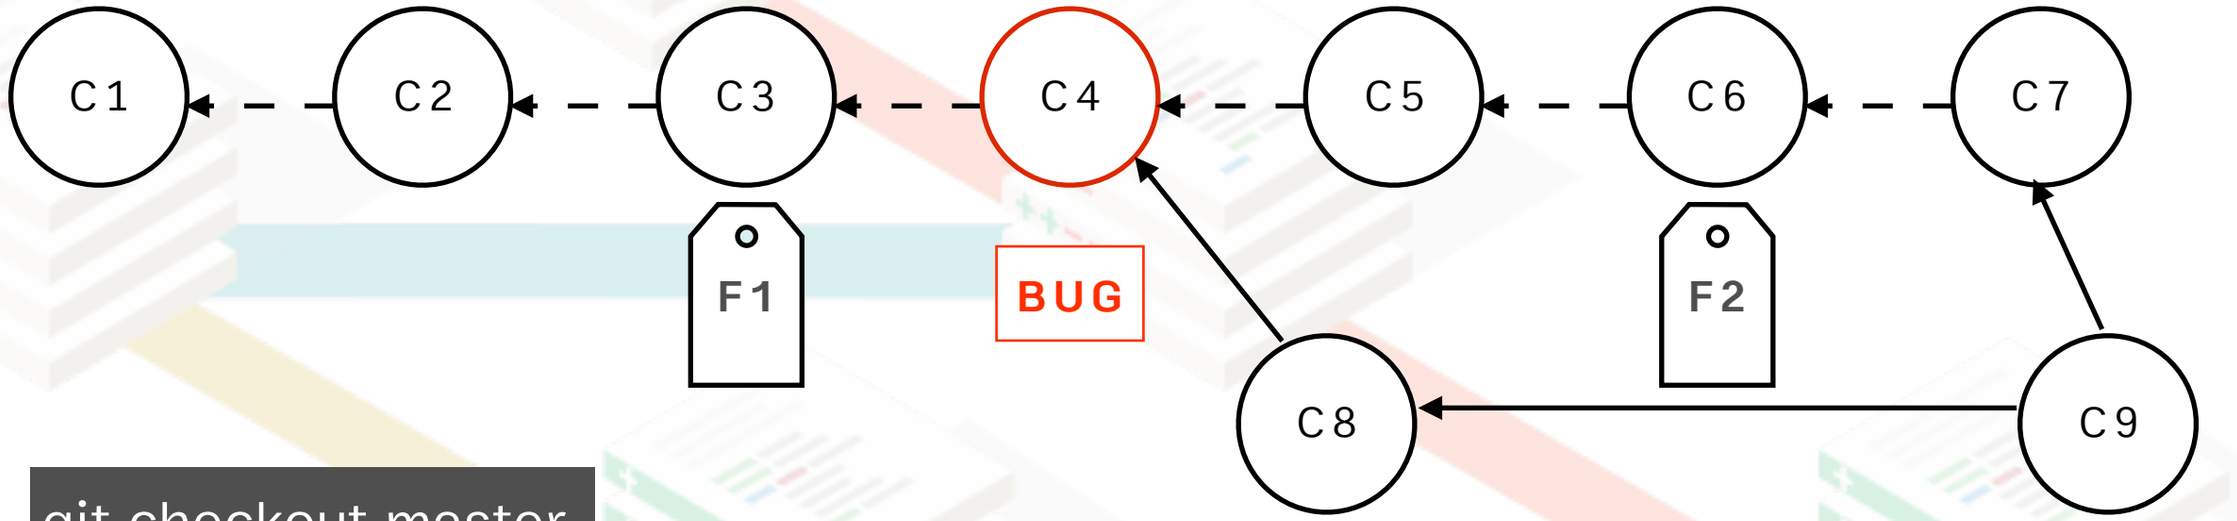
```
git bisect reset refs/bisect/bad
git checkout -b <branch-name>
git log --oneline
```

SENARIO1



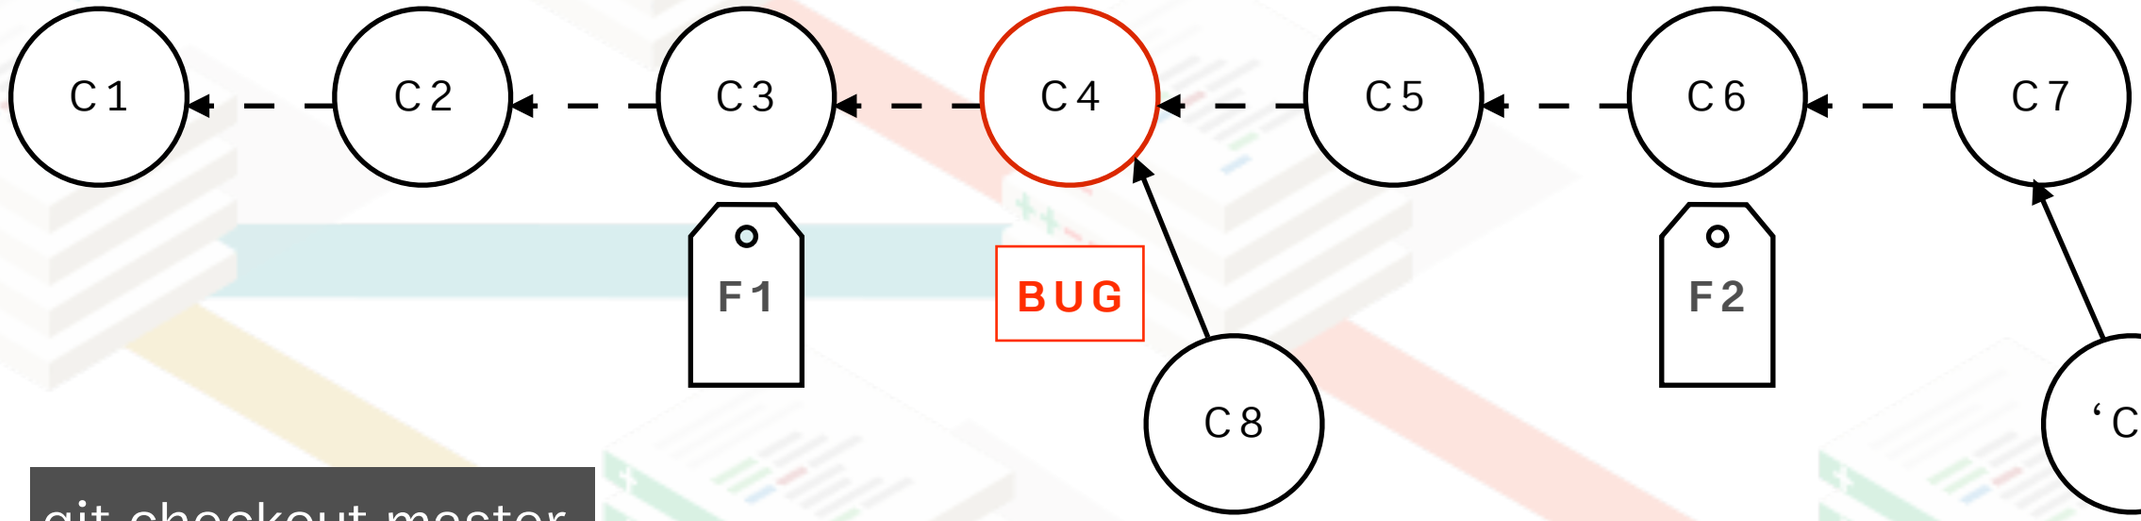
```
git bisect reset refs/bisect/bad^
git checkout -b <branch-name>
git log —oneline
# then fix bug
```

SENARIO1 [MERGE]



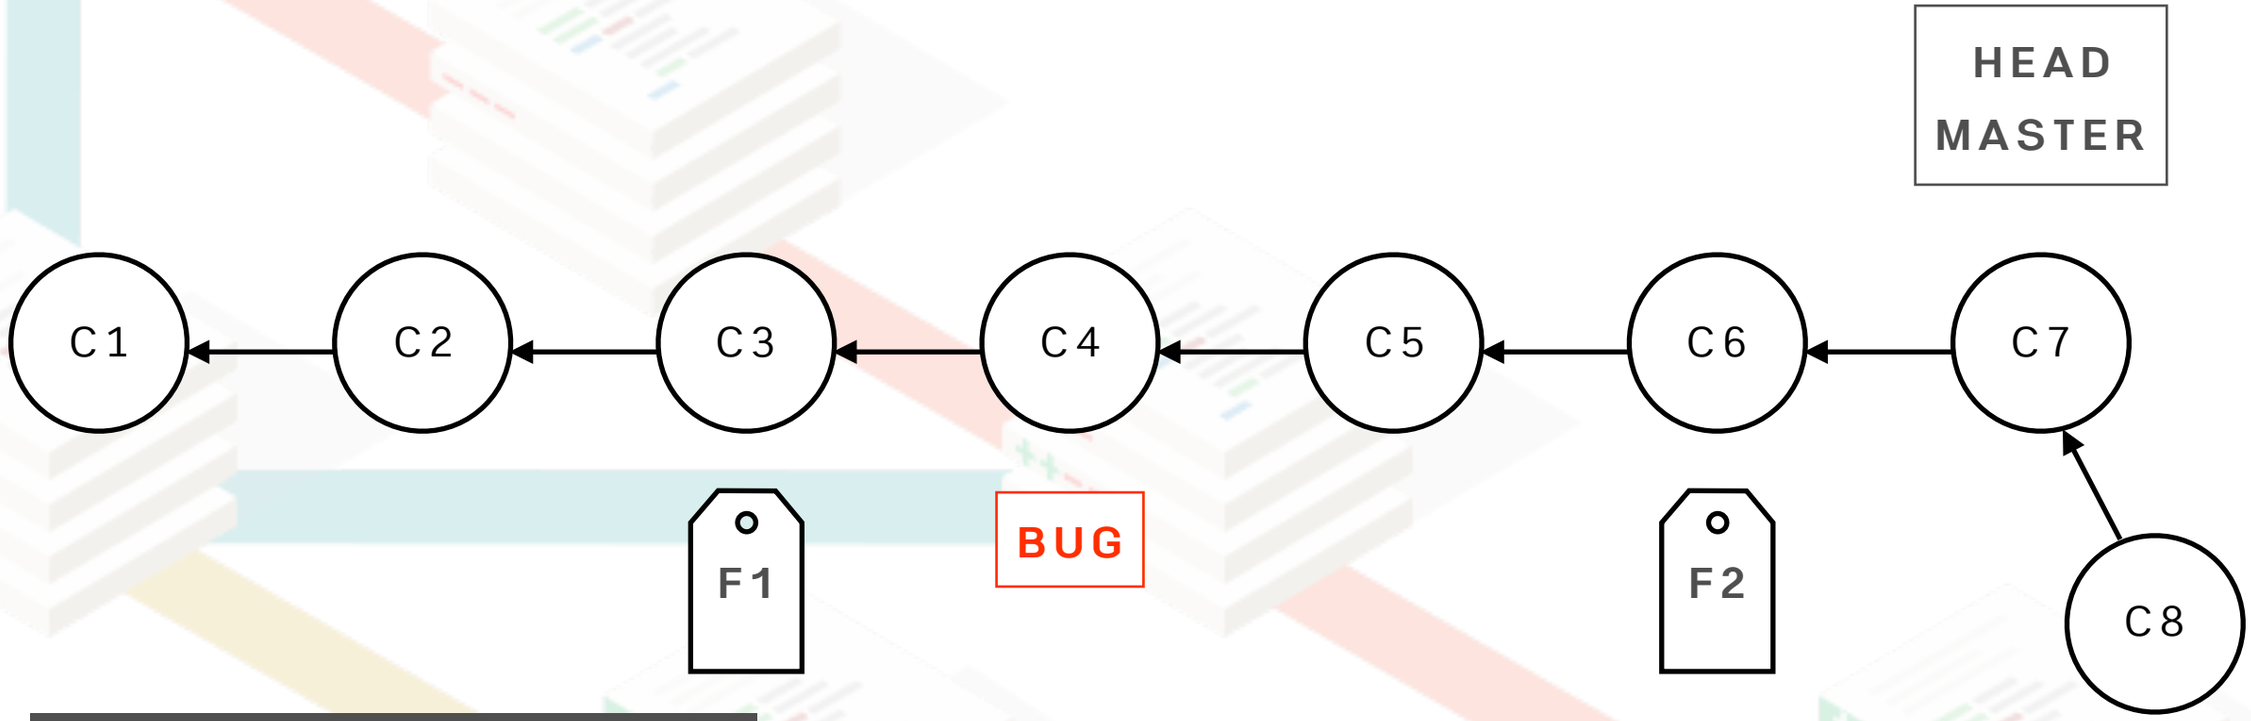
```
git checkout master
git merge bug
git branch -d bug
```

SENARIO1 [CHERRY-PICK]



```
git checkout master
git cherry-pick c8
git branch -d bug
```

SENARIO2



```
git checkout master
# then fix bug at the part
# that we found bug occur
```
